

Market Entry Feasibility

Evaluating the Magist Platform for ENIAC

Presented by: Team Electricity
Date: October 2026

Magist’s KPIs

- Total Revenue in 2 years **€13.6 M**
- Customers per Month **6-7K**
- Total **Tech** Revenue in 2 years **€1.9 M**
- Average Order Price of **124€**

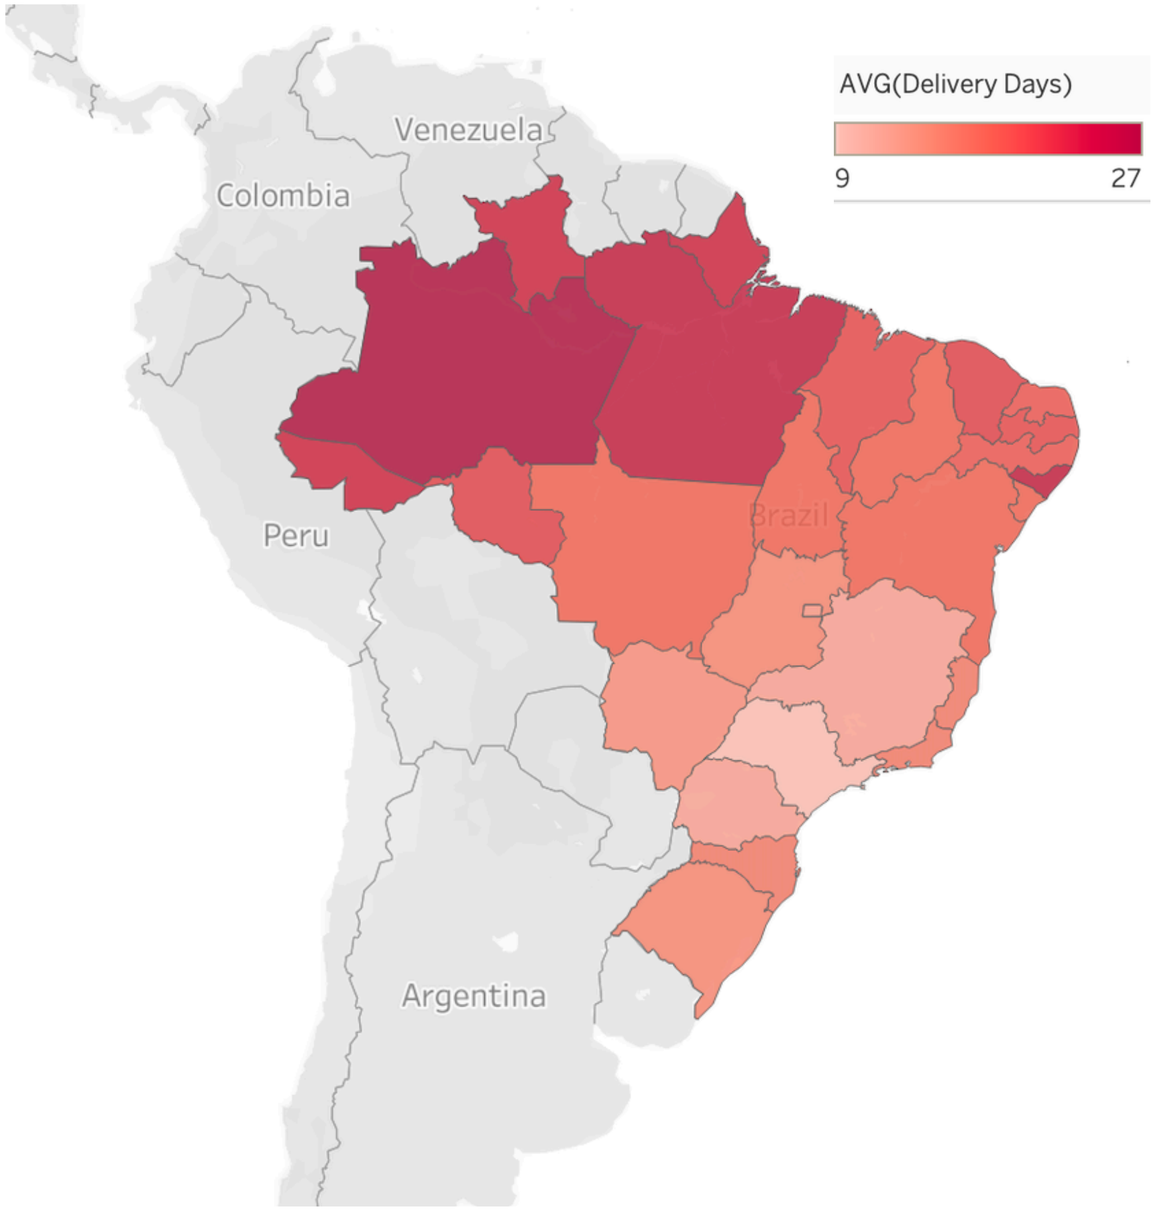

Tech Sales per Price Tier (Covering 2 Years)

Tech Revenue

€1.3 M

€575 K

Regional Delivery & Delay Analysis

Average Customer Experience

- Shipping Cost €19
- ETA (in Days) 25
- Delivery Days 13
- Delay Days 10

Strategic Verdict & Market Fit Risks

Why a nationwide hardware launch on Magist poses asymmetric downside

Return on Investment

Average order price of €124

Margins cannot offset local setup costs

Brand Reputation

Up to 27 delivery days

Uncontrolled logistics threaten premium image

Customer Satisfaction

Ratings drop to 1.7 - 2.6 stars

Delays directly trigger 1-star Reviews

Recommendation: No-Go on Flagship Hardware (> €500)
Alternative: Phased accessories pilot (€50 - €150) restricted to São Paulo hub

ENIAC

Magist's Revenue Growth

Disclaimer: The revenue plateau and sharp drop in late 2018 reflect the severe macroeconomic disruption following Brazil's national truckers' strike and the extreme volatility leading into the October 2018 presidential election.
